

Conditioning Crème Rinse

Product #2200

Acid pH balanced for maximum effectiveness and all types of hair. Adds beauty, body and lustre to the hair without leaving it oily. Brings new ease in combing and adds non-static control.

Directions for use:

1. After shampooing, rinse hair thoroughly with water and squeeze out excess moisture.
2. Pour conditioner directly into hand or mix in 1 cup warm water and slowly pour through hair. Work into hair well, being sure to saturate both ends and crown thoroughly. Leave on hair for approximately 1 minute.
3. Rinse with clear lukewarm water.

Ingredients: Water, Stearalkonium Chloride, Cetyl Alcohol, Glyceryl Stearate, PEG-100 Stearate, Hydrolyzed Collagen, PEG-75 Lanolin, Aloe Barbadensis (Aloe) Leaf Juice, Sodium Chloride, Diazolidinyl Urea, Methylparaben, Natural Fragrance, Propylparaben, Matricaria Recutita (Chamomile) Extract.
